(54)【考案の名称】 使い捨てのブリーフ型着用物品

(57)【要約】 (修正有)

【目的】 使用後にコンパクトに丸めておくことができる使い捨てのブリーフ型着用物品の提供。

【構成】 腰周り両側の外側に位置するシート部材自由端部8、9または保持部10、11に粘着剤塗布部12を設ける。ブリーフは使用後にコンパクトに丸め、形崩れしないように粘着剤塗布部を利用して止めておくことができる。ブリーフの廃棄は排泄物が漏れることなく衛生的であり、スペースをとることもない。

【実用新案登録請求の範囲】

【請求項1】 少なくとも腹側と背側のシート部材からなり、該両シート部材を互いに接合することにより腰周り両側に接合線が形成してある使い捨てのブリーフ型着用物品において、前記接合線の外側に前記各シート部材の自由端部が適宜の幅を有して位置し、該自由端部の少なくとも一部には粘着剤塗布部が設けてあることを特徴とする前記ブリーフ型着用物品。

【請求項2】 前記自由端部には、前記接合線に沿って前記着用物品を腹側と背側とに切り開くための摺持部を設け、該摺持部が前記粘着剤塗布部を兼ねていることを特徴とする請求項1記載のブリーフ型着用物品。

(54) [Title of the design] Disposable briefs-type clothing article

(57) [Abstract] (Amended)

[Aim] The provision of a disposable briefs-type clothing article which can be rolled compact after use.

[Constitution] Pressure-sensitive adhesive-coated parts 12 are provided on the free ends 8, 9 or pull tabs 10, 11 of a sheet member, which are positioned on the outside of the waistband on both sides. The briefs can be rolled compact after use and the pressure-sensitive adhesive-coated parts can be fastened to prevent subsequent loss of shape. The disposal of the briefs is hygienic in that waste matter does not leak, and the briefs do not take up space.

[Scope of the claims of the utility model registration]

[Claim 1] A disposable briefs-type clothing article comprising at least an abdomen-facing sheet member and a back-facing sheet member, and having a joining line formed on both sides of the waistband by the joining together of said two sheet members, wherein the free ends of said sheet members are positioned so that there are suitable widths thereof on the outside of said joining line, and pressure-sensitive adhesive-coated parts are provided on at least part of said free ends.

[Claim 2] The disposable briefs-type clothing article as claimed in claim 1, wherein pull-tabs are provided on said free ends, for opening out said clothing article by separating the abdomen-facing sheet and the back-facing sheet along said joining line, and said pull tabs also act as said pressure-sensitive adhesive-coated parts.

[Brief description of the drawings]

Figure 1 shows a front view (A) and an oblique view (B) of the disposable briefs of the design.

Figure 2 is an oblique view showing the brief-rolling process.

Figure 3 is a front view showing pressure-sensitive adhesive-coating patterns.

[Figure legend]
